

A decorative pink line that starts as a vertical line on the left, curves into a loop, and then continues as a vertical line down to the text.

Innovation Hub

where groundbreaking
ideas meet unparalleled
support

Comprehensive support

Flexible models offering emerging biotech companies access to over 100,000 sqft of adaptable laboratory space, analytical testing from over 250 scientists who have both expertise and access to an extensive range of state-of-the-art instrumentation. Benefit from our extensive industry network, fostering a supportive environment with annual adjustments to meet evolving needs.

More than just laboratory space

A unique collaborative ecosystem designed to propel startups to success. Unlike traditional incubators, the Hub fosters genuine integration with our scientists, leveraging decades of experience in drug development, ensuring comprehensive guidance. Additionally, shared amenities and social areas with our scientists offer ample networking opportunities and foster a strong sense of community.

Prime location

Located on the University of Reading campus providing quick access to Central London and major transportation hubs. The campus is part of a thriving technology hub, offering a dynamic environment with tech clusters, research institutions, and industry hubs. Benefit from ample networking opportunities and an inspiring setting conducive to creativity and innovation.

Find the best level of support for you

Model Innovate

A cost-effective solution offering state-of-the-art start-up laboratory space and a variety of fee-for-service options. Perfect for fine-tuning prototypes, lead compounds, or conducting early-phase research.

Model Forge

Ready to elevate your innovation? Model Forge offers all the benefits of Model Innovate plus expert consultancy and Level 2 project management services. Our seasoned professionals ensure precise execution at every step.

Model Launchpad

Building on Model Innovate and Forge, this package also includes a strategic commercial platform partnership for clients seeking support with commercial development.

Model 360: Concept to Commercial

Experience full-service support from concept to commercial manufacturing with dedicated guidance at every stage. Once lead assets are identified, we become an extension of your start-up, offering seamless, ongoing support.
